(Recognised by ERC, NCTE, Bhubneshwar, Affiliated to Aryabhata Knowledge University, Patna)
Sponsored by T.N. Agrawal Educational & Social Welfare Foundation, P.O.- SanyaBarhatta, Dist -
Bhojpur, State - Bihar, Pin Code- 802162

7.1.1 Institution has a stated energy policy streamlining ways of energy conservation, use of alternate sources of energy for meeting its power requirements

Energy is one of the major inputs for the development of any country. Energy conservation within the colleges is a responsibility of not only the management and the architects. It is equally important to involve the actual users of the buildings i.e., the staff and students in energy saving measures and strategies.

The college currently uses Government electricity, Inverter, LED bulb and solar plates as an alternative source to meet its power requirements. In the future, the college for alternative sources is poised to formulate a systematic energy policy of energy conservation methods and has considered working seriously on it.

This long-term goal as per the policy includes educating students and employees on environmental concerns and sustainability to turn our college into a carbon-negative institute. To include environment concerns in planning and decision making. Our sole goal is to include environmental concerns in planning and decision making.
