**6.5.1 Internal Quality Assurance Cell (IQAC) or any other mechanism has contributed significantly for institutionalizing the quality assurance strategies**

**Response:**

The institution implemented a number of steps to guarantee quality. Teachers, students, and non-teaching staff are all held to a rigid code of behaviour, rules, and discipline. The institution has a working group of committees and management cells to handle various tasks. Each Cell assumes the duties that have been entrusted to them. Under the direction of the Coordinator and the Principal, the Internal Quality Assurance Cell (IQAC) is established to monitor the operation of the management cells and committees.

Diverse aspects of education and teacher preparation are the subject of research, and more in-depth study areas are being sought after. The staff and students of IASE are also scheduled for exposure trips both inside and outside of the state. Each year, the institution sends non-teaching employees to ATI's ICT and other office procedural training programmes. The Institution occasionally runs programmes based on need. Specific responsibilities for the maintenance of official files are delegated to the establishment staff. According to their encadrement at various levels, the clerical staff is assigned official work and file keeping.
