Bhojpur, State - Bihar, Pin Code- 802162

7.1.8 Institution puts forth efforts leveraging local environment, locational knowledge and resources, community practices and challenges.

Report and photograph local environment, locational knowledge and resources

Local environment

All those elements are included under the local environment, which proves helpful in keeping the environment of the institution healthy, in the formation of healthy living habits in the children. The local environment has a significant influence on the neighborhood, type of building, playground, cleanliness, air, water, soil, lighting and furniture etc.

Keeping all the above mentioned facts in mind, the college has been established in the beautiful and picturesque environment of nature, which reminds the Gurukul education system of Vedic period and Rabindranath Tagore's Shantiniketan. The effect of the best environment of our institution is visible on the mental and physical development of the trainees.

Local information and resources

Any institution should have complete knowledge of the resources there at the local level, such as the historical information of the regional city, the characteristics of the city and rural areas. There is a close relationship between local information and institution resources. Resource is a resource that man uses to fulfill his desires. A thing is not called a resource until it is used by humans or institutions. Our institute is located in Harigaon, it is believed that in ancient times, the place of residence of the gods has been here; hence the name of this village is Hargaon. Sir Sivasagar Ramgoolam is credited for becoming the first Prime Minister of Mauritius, whose father was Mohit Ram Ghulam, a resident of Harigaon. The way Mahatma Gandhi is called the Father of the Nation in India today, Sir Sivasagar Ramgoolam is called the Father of the Nation of Mauritius.

Benefit of Community Methods and Challenges

There are many community challenges before the institution, such as women's education, environmental pollution, global epidemic, natural and man-made disaster etc. The organization does its work with the aim of removing the problems. Our Institution help needy villagers as like blanket distribution, free computer education for Rural girls, fast Ad kit for Rural children and free Dental checkup.

Our social festivals like Holi, Deepawali, Eid, Christmas Day, Rural fare etc. get many benefits from us.
