(Organization workshop on teaching Learning Materials Preparation)

Objectives:-

Teaching Learning Materials (TLM) are important for the teaches in teaching their lessons effectively, as it helps to a better interpretation and appreciation of the concepts, contents as well as the subject matter . TLM also enables the students to proceeds towards concrete learning.

A teaching aids is anything used by a teacher to help teach a lesson or make it more interesting to students. Teaching

aids can come in almost any form. Some of the most common are pictures , videos charts , flash cards and objects or educational toys.

Types of Teaching Aids:-

- **Actual objects**
- **Models**
- **Pictures**
- **Charts**
- **Maps**

Visual Aids: -Black board, posters, Flashcards, Presentations printed Text books, and Graphs.

Audi Aids:- Radio, Tape recorder and CDS.

Audio- Visual Aids- Films, Documentaries Virtual class room, Video recording Television etc.

Instructor Aditya Prakash Singh showed the regards to T.N.A.T.T.C., and explains his ideas regarding TLMs workshop concern. In workshop the participants are get a broad and depth theoretical explanation of particular topic . Participants also get practical- instructions for carrying out their duties, participants are trained to behave and co- operation between participants and connecting educational institutions and the community. Through preparing various TLMs of educational purpose the student teacher will be able to express their inner innovative ideas and thought in a aesthetic manner and skillful way.

Human have been using teaching aids and props since the beginning of time. In today classroom, lecture theatre or other learning environment, teaching aids and props are just as useful as ever before. In early children settings, teacher utilizes a myriad of teaching aids and props often in time from the toys and games. Nature based learning utilize props such as- Trees, Logs, Hills, Diet Plants, Rocks, and sticks. Many of these are complied by the teacher from various objects of

location. As children get older learning becomes more cognitively , abstract and theoretical, the number of teaching aids and props accelerated learning improved recall and higher engagement are notable potential benefits. While teaching aids support classroom organization and management props are subject or topic-specific items with high entertainment, engagement and interest value.

T.N.A. Teachers Training college, Harigaon, organize a work shop which designed to stimulate innovation in Teaching learning materials” Aditya prakash Singh, bearing C.R. 39, session – 2015-17 at present pursuing M.Ed. degree at Motherhood University, Roorkey (U.K) was done this workshop with the help of our faculties for develop pedagogical skills of student- teachers, through TLM in the exceeding volatile 21st century classrooms.
