- 7 – Teaching Practice

### **Evaluation Procedure**

In every walk of life the process of evaluation takes place none of the other form. It is only through evaluation that one can discriminate between good and bad. The whole cycle of social development revolves around the evaluation process. Education is considered as an investment in human beings in terms of development of human resources, skills, motivation, knowledge and so on. Evaluation helps to build an educational programme those asses it's achievements and improve upon it's effectiveness. It help in forming the values of judgment, educational status or achievement of student. In learning it contributes to formulation of objectives, designing of learning experiences and assessment of learner performance. Besided this, it is very useful to bring improvement in teaching and curriculum. It provides accountability to the society, parents and to the education system.

The improvement in course/curricula, texts and teaching materials is brought about with the help of evaluation.

So, in short evaluation is called a systematic process of collecting, analyzing and interpreting information to determine the extent to which pupils are achieving instructional objectives.
